

WAR NOTES

Sub in St. Lawrence for First Time in Canada's History; United States and Laval Differ Over Martinique. Burmese Losses. R.A.F. Over France. Jap Rebuff at New Guinea

Bringing the war to the threshold of Canada an enemy submarine has been operating in the St. Lawrence river. This is the first time subs have ever got into the St. Lawrence and two ships were sunk last week. In all about 88 survivors struggled in icy waters to reach the shore and a small fishing village. Complete list of those who lost their lives is not yet given.

Air Minister Power reports 42 million being spent for defensive airports in Canada.

Russians Driving at Kharkov

The Russian offensive in the Kharkov area has brought substantial advance and recapture of many populated villages and cities. A great amount of Nazi material has been seized or destroyed and many prisoners taken. Inner defence lines have been broken in the Soviet wave, and flank movements are advancing to threaten the encirclement of the key city. If Kharkov is recaptured it might force the Germans to swing their line back toward the Sea of Azov.

The Kerch peninsula is also scene of stubborn resistance, and the Ukraine offensive of Timoshenko indicates growing Russian strength. Action in the Ukraine may bring substance to the Soviet hope of complete defeat of Hitler in 1942 so far as Russia is affected. Although Russians regained considerable territory during the winter, the power of the strong action was mainly in exhausting German men and resources.

Martinique

Premier Laval of France has announced that it could not accept Washington's conditions respecting the status of Martinique. Washington is seeking the neutralization of Martinique, French high commissioner. It is understood this has resulted in agreement for immobilization of French aircraft carrier and cruiser at Martinique.

Laval states that France will not relinquish any rights over Martinique or France's West Indies possessions. It is American intention that French possessions in the Caribbean should not become a menace to United States.

German Subs in Atlantic

A diary picked up by British in Libya carries the hint that Germany may be using huge submarines to supply U boat nests along the Atlantic coast of North America. These 1500 ton undersea craft could carry oil munitions and supplies to help the U boats in re-equipping.

Burmese Loss

Factors involved in the course of the war in Burma were delay in bringing in veteran Chinese troops and expulsion of Allied aircraft from Burmese bases by concentrated Japanese bombing of all landing ground.

Japs drove a wedge from Bay of Bengal to borders of Tibet in four months, separating two of her greatest foes. Opposing this early in the campaign were two British and Indian divisions, with R.A.F. and American aircraft of about 150. Later one Chinese division came to assistance.

This was totally inadequate in equipment and numbers. Parts of the British army in Burma have got into Eastern India ending a five month battle. Native treachery and lack of air support made it impossible to hold positions. A defensive line may be formed in northern Burma once the men are re-equipped with equipment and fighting gear. The R.A.F. have waged destructive attack on Jap held bases on the Bay of Bengal.

Surplus rice produced in Burma, Thailand and French Indo-China may be an instrument to tempt the hungry millions of India and other lands.

It is reported that the main British army is still in Burma. Northern

OBITUARY

MRS. H. C. DOANE

Funeral services were held Sunday afternoon for Mrs. H. C. Doane, aged 83, who died May 13 after a brief illness. Mrs. Doane came to Alberta in 1905 from Oberlin, Ohio, with her husband, H. C. Doane. They took up a homestead 10 miles north of Vulcan and made it their home since. Mr. Doane predeceased his wife in 1916.

Mrs. Doane was known to all as "Grandma Doane." For several years she took charge of the local rest room, making many new friends.

Rev. Sidney Pike officiated and interment was in Highland cemetery north of town.

Pallbearers were C. Steiner, J. Stein, R. McKinnon, A. Clayton, E. G. McPherson and Thomas Love.

To mourn her loss are three sons, D. L. Doane, Vulcan; C. E. Doane, Glyceria, Ohio; O. G. Doane, San Francisco; seven grandchildren, six great-grandchildren and two sisters and a brother in Michigan, U.S.A.

Funeral arrangements by Kelly Funeral Home, S. W. Jones in charge.

THIGH HILL W. I.

The May meeting of the Thigh Hill W. I. was held at the home of Mrs. A. H. Mainland on Tuesday, 19th.

After the roll call, which was answered by naming famous women, a paper on Education and Progressive Schools, was given by Mrs. May L. Todd. The guest speaker was Mrs. Lloyd Munson, who gave an interesting outline on District Conferences.

Three coats were ripped to make a refugee quilt, and a \$2.00 donation was given to the Red Cross. The raffle was won by Miss Beverage.

The hostess then served a birthday supper to those present which was enjoyed by all.

The next meeting of the Thigh Hill W. I. will be held at the home of Mrs. O. B. Roe on June 16th, and they will entertain the Vulcan, Reid Hill, Kirkcaldy and Champion W.I.'s. There will be an auction sale of handicraft at this meeting.

RED CROSS NOTES

The work committee wish to acknowledge with thanks the following: Group 1 United Church, 2 quilts; Children of Sandpit school, 1 quilt; Good Deeds W.I., 1 crib quilt.

The following shipment was made last week; 3 large quilts and 1 crib quilt, also the refugee quota for April of ten bundles and ten pair of slippers. Each bundle contained ten coats, ten dresses, ten cardigan sweaters, twenty pair of socks, twenty nighties, and twenty pair of panties.

The Red Cross drive for funds is now on its second week and is coming along very well. The canvass of the own has been finished; the canvass of the rural districts is underway and will be completed by the end of this week. The response has been very good and we are well on our way to reaching our quota.

Burma is the backdoor route to India.

Allied Bombers Hit Jap Bases. American and Australian planes hunted out a Jap air base in Northern New Guinea raining bombs and starting fires, and taking the Japs completely by surprise. This was the successor to previous attacks upon important enemy bases which provide a threat to Australia.

The Chinese also have buffeted Jap aggressors on their approach over the Burma road. The American Flying Tigers have been effective in Indo-China near the Chinese border.

R. A. F. Over France

In successive drives over German occupied Europe, the R.A.F. have been doing great damage. The first opposition in weeks was experienced this week-end when Nazi aircraft rose to drive out the Germans. Full fighter strength attempted to turn back the British drive. The R.A.F. attack continued from dawn to dark on the largest scale of combat since the German ships got through the Straits of Dover. The Heinkel aircraft works have been heavily damaged, and Boulogne docks have been firewiped.

British Politics

Critics of Premier Churchill contend that the chiefs of staff of the three armed services should be completely free of all political influence.

There are strong agencies however supporting Premier Churchill's tactics and influence. The Daily Express says: "Mr. Churchill saved Britain from defeat. In 1941 he wiped out Mussolini's East African Empire and army in Libya. He secured Iraq, Syria, Persia, and other territorial acquisitions of great importance to the Allied cause. In 1942 he is preserving the lifeline to India, Suez and Australia, and has secured the island of Madagascar—and the year is not yet half run. There is plenty of time for more."

THIS BLOOD MAY SAVE A LIFE

Through clinics located in most of the larger cities of Canada, the Canadian Red Cross is receiving 3,000 donations of blood each week which is made into life-giving serum for use in transfusions to wounded soldiers, sailors and airmen. So great is the demand that the Red Cross is increasing its facilities as rapidly as possible to take care of 5,000 donations each week. Above: Laboratory technicians take samples of each donation which is carefully tested.

Brief Items of Local Interest

Mrs. R. Renton and granddaughter, Patsy, of Calgary, are visitors at the home of Mrs. D. Mills, the former's aunt.

Miss Bernice Graebel was a recent visitor at the home of Mrs. Mills.

Pte. Joe Benoit of the R.C.C.S. who has been stationed at Cornwall, Ont., is home on leave.

A birthday party honoring Miss Katie Hiltz, on the occasion of her sixteenth birthday, was held at the home of her parents on May 12th. A number of her school friends and others attended and enjoyed the many games which were played.

"Hello Bill, how are things?" "Fine, thanks." "How do you find business these days?" "By advertising in the Advocate."

Sam Schierman has returned to Vulcan after a two-week holiday spent in Calgary and Cochrane.

Miss Dora Broderick of Calgary, spent Mother's Day at her home in Vulcan.

Miss Loreli Fitzpatrick of Lethbridge, is a Vulcan visitor.

Mrs. J. S. Smith was a recent visitor to Calgary and Claresholm.

Mrs. Army accompanied by her daughter, Mary Catherine, were Lethbridge visitors recently.

Mr. and Mrs. W. S. Hill accompanied their daughter, Miss Eileen Hill, R.N., to Lethbridge last week.

Sgt. Russell Markert who has been home on leave for some time, has returned to his station in Calgary.

Having graduated in pharmacy at the University of Alberta, Gordon Myers is now in the Vulcan hospital undergoing an operation, prior to entering the Royal Canadian Navy as a Doctor's assistant.

Ensign Roger W. Lockhart, USNR, visited several days with his mother, Mrs. Lyman and Mr. M. G. Lyman. He was commissioned in Annapolis, Maryland, and is now enroute to Seattle, Washington, where he will take up his duties.

On Friday, May 29th at 1:30 p.m. a mechanical field day will be held on the farm of B. H. A. McDonald, 8 miles west of Champion under the auspices of Alston U.F.A. At this event there will be a demonstration of economic use of tractors and the following points demonstrated and discussed: diggage; correct load; fuel consumption variances; tillage implement efficiency. The event will be in charge of F. F. Parkinson, mechanic-instructor, School of Agriculture, Olds.

Andrew Morris Nafziger, son of Mr. and Mrs. Samuel Nafziger, Vulcan, Alberta, has been enlisted in the R.C.A.F. at the Calgary Recruiting Centre as an airframe mechanic, AC2. A. M. Nafziger will commence his Air Force training at completion of A.F. M. course. Previous to enlistment he has been working for the M.D. of Royal at Vulcan.

Mrs. Harry Washburn and son are spending the week with Mrs. Neil Washburn.

LAC Crerar of Calgary, was a visitor in Vulcan over the week-end.

Harry Martin was a week-end visitor to Lethbridge.

Miss Thyllis Greene of High River was a Vulcan visitor on Sunday.

Mrs. John Neil of Indianapolis, Ind., arrived a week ago to spend the summer with Sep Washburn.

The Ladies' Auxiliary are sponsoring a dance on Tuesday next, May 26th. Music by Len Davis' orchestra. Proceeds go for cigarettes and parcels for boys on active service overseas.

Seeding of wheat is rapidly nearing completion and that of coarse grains is well advanced. Moisture conditions are good.

J. T. Willard received his first load of scrap metal and rubber from Pete McIntyre. Who will be next?

Sgt. Pilot Lawrence Ottewill, of No. 1 A.N.S., at Rivers, Man., is home on two weeks' leave.

Mr. and Mrs. William Hill Sr., from the west coast, were guests at the home of W. S. Hill over the week-end.

The Thigh Hill pupils and teacher were recently entertained at the Blusson school near Champion.

APPLICANTS WANTED

Applications for all trades in the Royal Canadian Air Force (Women's Division) are required immediately by the R.C.A.F. Recruiting Centre, Calgary. Trades included are: Clerks (accounting, general and stenographic), cooks, dental assistants, drivers (transport), equipment assistants, fabric workers, hospital assistants, telephone operators, postal clerks, general duties and messwomen.

Requirements—Good character; age 19 yrs. to 40 yrs. inclusive; medically fit and at least 5 ft. in height; minimum of high school entrance; be able to pass appropriate trade test.

Married women with children and permanent civil servants are ineligible for enlistment in the Women's Division.

Address all communications to Commanding Officer, R.C.A.F. Recruiting Centre, Calgary, Alta.

WEDDINGS

McAFEE — THOMAS

At four o'clock on Sunday, May 17, the Vulcan United Church was the scene of a very pretty wedding when Miss Nonie Maree, eldest daughter of Mr. and Mrs. Dave McAfee, of Vulcan became the bride of LAC Ronald Chisholm Thomas, only son of Mr. and Mrs. R. Thomas, of Long Beach, California. Rev. C. S. Pinder of Nanton, conducted the ceremony.

The bride looked charming in a rose beige ensemble. Her accessories were brown and she wore a corsage of white gardenias and orange blossoms (brought by plane from California).

She was given in marriage by her father, and was attended by her aunt, Miss Jean Donald who was becomingly attired in a sand dress, with matching accessories of heavenly blue. Her corsage was of sweetheart roses and blue Forget-me-Nots.

Flt.-Lieut. K. Carey of Long Beach, California, acted as best man.

Mother of the bride wore a gown and hat of deep violet, and her corsage was of gardenias, while the bridegroom's mother was attired in a black afternoon dress with accents of blue and wore a corsage of Talisman roses.

During the signing of the Register, Miss Jean Martin, accompanied on the organ by Mrs. Pinder, sang "O Promise Me."

The church was profusely decorated with Spring flowers and ferns, white satin bows marking the guest pews.

William Hill Jr., and Edward Armeij Jr., acted as ushers.

Immediately following the ceremony a reception was held at the home of Mr. and Mrs. Edward Armeij.

Mrs. J. G. Donald, grandmother of the bride, and the groom's mother, Mrs. R. Thomas, presided at the tea table which was centred with a beautiful three-tiered wedding cake flanked by pale green tapers.

A toast to the bride was proposed by W. E. Butchart, and the groom replied.

The guests then sang "For They Are Jolly Good Fellows."

On their departure for Calgary and Banff, the bride wore a beige plaid semi-fitting coat.

Out-of-town guests were the groom's mother, Mrs. R. Thomas of Long Beach, California, who came by plane; Mrs. J. G. Donald and daughter Jean; and Mrs. H. W. Soley and son Ronnie, of Edmonton; Mr. and Mrs. J. W. Donald and daughter Lynne; Mr. and Mrs. Roy Green of High River; and Miss Eileen Hill, 21 N., of Lethbridge.

FLEUCK — PATRIQUIN

Marriage vows were exchanged by Miss Olga Fleuck, third daughter of Mrs. and the late Mr. Fleuck of Nanton, and Roy Vernon Patriquin, youngest son of Mr. and Mrs. R. M. Patriquin, of Vulcan, at the home of D. Anderson of Nanton on Sunday, May 17th. The Rev. S. Pinder read the marriage vows.

The bride was charmingly attired in a gown of beige and wore a corsage of Talisman roses.

She was given in marriage by her cousin, David Anderson, and was attended by her sister, Miss Ethel Fleuck, who wore a dress of rose and a corsage of pink roses.

The groom was attended by his brother, Constable Earl Patriquin of Dartmouth, Nova Scotia.

During the signing of the register, Mrs. Pinder sang "I Love You Truly." Mrs. Fleuck, mother of the bride, and Mrs. Patriquin, the groom's mother, acted as hostesses at the reception immediately following the ceremony.

Rev. Pinder proposed the toast to the bride and the groom replied.

The festive board was centred with a beautiful three-tiered wedding cake, and was decorated with spring flowers and tall white tapers.

After a short honeymoon the happy couple will reside in the Vulcan district.

MISS NONIE McAFEE HONORED AT SHOWER

A miscellaneous shower arranged by Mrs. Collier, Mrs. Broderick and Mrs. W. S. Hill, was held in the basement of the Anglican church on Saturday afternoon, March 16th, on honor of Miss Nonie McAfee, bride-elect of this month.

The presentation of the gifts was made by Mrs. Buehler and Mrs. Rae. In a few well chosen words, Nonie thanked her friends for the many lovely and suitable gifts which she received.

Lunch was then served to about 40 guests, Mrs. Donald, grandmother of the bride, and Mrs. Broderick presiding at the tea table.

WARNING!

Scrap dealers coming into the district are using most unfair methods to obtain scrap material. Take warning that statements they make that the local salvage committee is not functioning or that they can pay more than the Salvage Committee would receive are entirely false. All scrap material should go through the local recognized dealers or committee.

See accompanying articles elsewhere in this issue.

Tires and Services Under Rigid Control

Retreaded and used tires, used tubes and retreading services, as well as new tires and new tubes, are now under rigid control, according to an announcement by Hon. C. D. Howe, Minister of Munitions and Supply.

Effective May 15, the new order is designed to conserve Canada's rubber supplies for war purposes to prevent hoarding, and to keep essential vehicles, including farm trucks and implements, in operation as long as possible.

The order tightens the previous control over new tires and new tubes. It sets up three classes of eligible vehicles, A, B, and C on a sliding scale gauged according to the usefulness of the vehicle to a country at war, and it sets out the 1,000,000 or more motorists who are no longer able to buy even a used tube.

When a dealer has two or more orders for a similar tire or tube and he cannot fill both orders, he must give preference to the owner of a vehicle in a higher class.

Owners of vehicles in Class A are permitted to buy new tires, new tubes, retreaded tires, retreading services, used tires or used tubes. In this class are such vehicles as cars used by physicians, cars belonging to clergymen who serve two or more congregations more than 3 miles apart, cars used by clergymen in sparsely settled districts, trucks for road repairs, trucks for carrying farm products and food, fire-fighters' vehicles, police vehicles, and farm tractors and harvester combines, other than automobiles and trucks, for the operation of which tires and tubes are essential.

Owners of vehicles in Class B are permitted to buy retreaded tires, retreading services, used tires and used tubes. In this class are rural mail carriers, passenger cars or trailers used principally for the transportation of produce and supplies to and from his farm by a person whose principal occupation is farming and who owns no truck and others.

Owners of vehicles in Class C may purchase only used tires and used tubes. Included in this class are vehicles used principally in the course of their duties by the following: Farm or food products inspectors, dentists or optometrists who serve more than one community, scrap buyers, sheriffs or other law enforcement officers, servicemen who repair farm machinery, rural school teachers, rural undertakers, and newspaper reporters. Also covered in this class are horse-drawn vehicles and farm implements for the operation of which tires are essential.

Red Cross Drive Now in Progress

Although the Red Cross drive which commenced May 11 has been held up locally to some extent because of flood conditions, canvassing is going forward with as great speed as possible. In view of the great work done by the Canadian Red Cross, it is hoped that local donations will be generous.

Like a sturdy lifeline stretching between soldiers of the Empire who are prisoners of war and their folks back home, the Canadian Red Cross is now packing prisoners of war food parcels at the rate of 2,000,000 parcels a year with plans under way to increase this to 4,000,000 parcels a year by the end of 1942. Packed by volunteer workers at Red Cross depots in Montreal and Toronto, these parcels are sent to the International Red Cross at Geneva which sends them on to British, Canadian, Australian and New Zealand soldiers interned in prison camps in Germany, Italy and Africa.

Each parcel weighs eleven pounds and contains sufficient food to supplement prison camp rations for one week. Whole milk powder, butter, cheese, corned beef, pork, salmon, sardines or kippers, raisins, prunes, jam biscuits, chocolate, salt, pepper, tea and soap are included in each parcel, each carefully selected by authorities on nutrition to maintain the health and spirits of prisoners of war as far as possible.

To pack and ship one of these food parcels to the International Red Cross distributing centre at Geneva, Switzerland, it costs approximately \$2.50 and for this service to prisoners of war the Canadian Red Cross is planning to allot \$3,550,000 out of the \$9,000,000 required for the operations of the Society during the next year.

Blood Serum

Last year 30,000 donations of blood were given with many donors giving regularly. More clinics must be opened and 75,000 donors are required. A reserve of serum must be built up. A freezing and dewatering process converts the blood plasma to powder which can be stored on ships, at battle fronts or in hospitals indefinitely. Part of the \$9,000,000 finances this blood serum. 36,660 blood donors gave their blood in Red Cross clinics across the dominion last year.

Blankets

In the early days of appalling heavy

raids on London more than 100,000 blankets were distributed. They were to be found in tube stations, in the churches, in the public shelters and in the little Anderson shelters amidst the ruins of our homes. An old lady who was dug out after being buried for 24 hours was asked if she was very cold. "No," she said, "I was wrapped in my red Canadian blanket."

As the raids developed our needs became more varied and urgent. Thousands of garments had to be provided. Night after night hundreds of families were rendered homeless, their night clothing often the only possessions left to them. Stocks of Canadian clothing were rushed to emergency centres and family after family was fitted out. The next problem was food and once more Canada came to our aid. Soup, cheese, milk, stew—all were sent to us from the Canadian Red Cross.

Once this emergency work was carried out, there remained the arduous task of making permanent arrangements for our homeless. Children had to be evacuated, hostels for old people had to be set up, invalids had to be sent away to relations or friends, all of them had to be equipped and thousands of Canadian Red Cross parcels were to be seen at our railway stations. Harassed social workers telephoned their wants; we in turn rang up Canadian Red Cross and Colonel Scott, Overseas Commissioner of the Canadian Red Cross, with his valiant band of helpers never once failed.

Air Force Wants More Trades Women

Applications for all trades in the Royal Canadian Air Force (Women's Division) are required immediately by the R.C.A.F. Recruiting Centre, Calgary. Trades included are: Clerks (accounting, general and stenographic), cooks, dental assistants, drivers (transport), equipment assistants, fabric workers, hospital assistants, telephone operators, postal clerks, general duties and messwomen.

Applicants must be aged 19 to 40 inclusive, medically fit and at least five feet in height, have a minimum of high school entrance and be able to pass appropriate trade tests. Married women with children and permanent civil servants are ineligible for enlistment in the women's division.

Soviet Progress In Agriculture

Leslie Emslie Who Knows
Russia Tells of Remarkable
Progress Made There in Recent Years

The Soviet in the early stages availed itself of the technical knowledge possessed by scientists of other lands, but when some of these returned later they found the Russians a step ahead of them. So remarkably rapid has been the progress made by Russian scientists in the study of agricultural problems that in some respects they now lead the world. In plant and animal breeding and nutrition and in soil science no nation has advanced farther and few so far.

Couch-grass in Canada is a troublesome weed. The Russians crossed it

with wheat and obtained a perennial wheat from one sowing of which seven crops can be taken. Examples of Soviet progress in other fields are the extraction of gas from coal right in the mine, and the preparation of liquid air by a new process which reduces the cost from approximately \$1.50 to less than 20 cents a pint. Many more examples of Russian efficiency could be cited to prove the scientific progress made in modern times. She tackled her agricultural problems first building on that firm foundation the structure that commands the respect of all nations.

Compulsory war service training for all women students at University of Alberta may be established next term.

More women than men will be enrolled under war emergency training by the end of summer. They will take their place in labor fields.

Church Notes

UNITED CHURCH

Worship 11 a.m. Church school 12. The S.S. lesson is found in the Onward. Evening worship 7.30. Mr. Pike is attending the Conference of the United Church in Edmonton this week. On Sunday our guest preacher is Rev. H. E. Gordon, B.A. of Langdon. Mr. Gordon has held pulpits in Calgary, Medicine Hat and the Metropolitan Church, Edmonton. He is one of Alberta's most capable preachers. You will do well to hear him.

ANGLICAN CHURCH

Whitsunday is provided with a proper preface to the Ter-Sanctus, and is therefore a day on which all should attend church. This year the festival comes on Empire Day. Services at Vulcan will be at 8.30 and 7.30; at Lomond at 3 p.m. Will parents please note that church school at Vulcan assembles at 11 a.m. during the coming months.

OUT OF BLACK-OUT

LAC Walter Ottewill, April 25th—Spring has changed the picture over here considerably. We've had some remarkable weather, much like early summertime in Canada. The spot we are in is quite windy, giving that home like Alberta touch. I've been down along the sea front a few times, enjoying the sunshine. I have quite a good tan already this season, probably due to the fact that my job keeps me outdoors most of the time.

I was just down to my last package of cigarettes the other day (in fact I had 7 along with my weekly issue of 30) when a 300 package arrived from the Vulcan Elks. Needless to say it was the most highly appreciated parcel I could have received. Everything else is secondary to cigarettes as far as I'm concerned while over here. I have received no cigarettes from any other source as yet. Would you let me know how many you have sent from time to time so I can keep a check over here.

I have received three letters and the Advocate (dated March 19th) during this week. Mail has been coming in slowly the past few weeks. I suppose I can expect a flood of it any day now.

I'm on a 24-hour shift today, then I automatically get 24 hours off. I get one of these 24 hour shifts every four days but the schedule may be changed very soon to 24 hours off then 24 on. I'm inclined to think this system will prove quite a bore as nearly all my time off will be spent sleeping.

In glancing through the Advocate I notice the fine effort made by the community in salvaging paper. Salvage is the first word over here. Everything is saved. You may have noticed by the Canadian newspapers that it's an offense punishable by law to even throw away a train ticket. The results of this ceaseless effort are very commendable in more than one way. The town I'm stationed near, is very clean, no waste paper littering the streets.

I've run into two chaps in the past week, with whom I took my course at U. of A. They were both on leave here. I had a night out with one of the chaps and we had a very good time.

Things are quite quiet here. I can report nothing very exciting. My job has become a routine now, much the same as in "civie street." We would all like to see more action, and, unfortunately, the war. Heavy raids have been carried on over Germany in the past few weeks causing Jerry quite a few headaches.

We are just preparing our evening meal, tea with sandwiches made from bully beef. That may not sound very palatable to you, but it's very acceptable to us.

One of my chums was posted recently. I've been rather unfortunate in having all my new found friends posted.

P.S.—Don't forget my cigarettes.

Lyle Hubbard writes: Have been receiving your paper okay but please change address to above so it will reach me sooner.

The Vulcan Advocate was sure a good Christmas present, and makes me feel closer to home. It's great to sit and read the Vulcan Advocate (sent to me by Mr. Monks) and smoke cigarettes sent by the Vulcan Elks and think of the cakes, cookies, bars, etc sent by the Women's Institutes.

LAC Monkman, W. J., R.C.A.F., Overseas: "I hope you will forgive me for not answering your letters sooner. My work is most interesting and now that spring is here it is easy to see why the English love their own country."

REID HILL—MILO

Miss Dorothy Anderson of Ozar, is a guest at the home of Mr. and Mrs. Art Engen.

Carson McKay of the R.C.A.F. in Edmonton, spent last week-end at his home here.

Mrs. Roy Page and Mrs. Andrew Armstrong were week-end visitors to Calgary.

Dr. Carson gave a very interesting lecture in war gases and blood transfusions at the Reid Hill ladies' nursing class last Thursday.

Township Sch. Areas

(From Barrie Examiner)
There is cause for faith in our system of government, as we see more and more parts of Ontario adopting the "Township School Area" idea. Oro Township led the way in Simcoe County with five schools under one Board and in Matchedash, all the five schools of the township have been placed under the control of a single Board. This is a move in the right direction in cutting down the amazing number of governing bodies in this

HI-SCHOOL HI-LITES

Play ball, echoes and re-echoes off the decadent walls of old V.H.S. Softballs and bats, smelling suspiciously of moth-balls, have come to light from realms unknown, and now softball is really in swing.

Cause of much merriment and interest was a contest held between the grade nine boys and grade eleven girls. Odds were heavy for the girls (among the boys at any rate), so one and all were quite taken aback when the boys came to bat and brought in a seemingly endless chain of wins. In the girls' turn to bat we were also surprised. Perhaps Lady Luck was against them, but many of them couldn't have hit the barn had it been pitched to them. The score at the end of this remarkable exhibition, was something in favour of the boys.

However, the girls managed to bring honor and victory to V.H.S. after the game with Nanton on Wednesday night so V.H.S. is quite willing to forgive them for their first game. The tally at the end of the Nanton contest was 25 to 16 in favor of Vulcan. A very fast game was played before a crowd of enthusiastic fans. The team came home quite flushed with pride, and no doubt would have carried Ruth Deans home on their shoulders had the distance not been quite so great. Congratulations go to Ruth from her team mates and all fans for the outstanding game she played. She pulled the team through many a tight spot and pitched the best game of her career. Congratulations also to the rest of the team who so ably supported the honor and reputation of our fair though ramshackle school.

Speaking of the schoolhouse, it has, much to the surprise of everyone concerned, survived the winter in fine shape, though slightly grayed and with a noticeable sag in its beams.

As promised in a former issue we hereby present the present score of our school war savings drive:

Grades 1 and 2 have bought \$74.14 worth of war savings stamps; Grades 3 and 4, \$34.76; Grades 5 and 6, \$18.50; Grade 7, \$27.00; Grade 8, \$30; Grade 9, \$55; Grade 10, \$37.75; Grade 11, \$5.75; Grade 12, \$50.25.

Certain grades are still tagging along in the rear with no apparent effort to overtake the leaders.

The salvage campaign in the public school is progressing, and some good sized piles of salvage are in evidence.

A suggestion was made to our president that we at least have a variety concert this year, as in previous years but as yet suggestion seems to have utterly failed to evoke any response. However, we still have our hopes.

Friday there was much discussion over the softball game planned for Friday night, and eventually it was decided to postpone it for awhile.

Work on the year book is progressing satisfactorily with Marjorie Rushfeldt and Connie Hoskyn as associate editors. A fuller description of this will be given in a later issue.

NEXT SALVAGE COLLECTION
WEDNESDAY, MAY 27th

The Vulcan Salvage Committee have again made arrangement for storage of the salvage collected here and in the district. Collection days have been changed to Wednesdays with the next collection date being set for Wednesday afternoon, May 27th starting at 1 p.m. Please have everything ready for collection at that time. Owing to its bulky nature, paper should be packed in bundles.

Since the last collection, rubber has become a salvage item of prime importance. Canada has urgent need of 50 million pounds of scrap rubber in order to keep up production for mechanized army. This can be obtained from such articles as tires, old hot water bottles, rubber boots, overalls, garden hose, fruit jar rings, etc.

Farmers of the district are asked to bring all such scrap with them when they visit Vulcan. It can be left with any garage, or with J. T. Willard, who will turn it over to the salvage committee.

The salvage committee have already turned over \$50 to the local Red Cross branch. This was part of the proceeds of a carload of paper that has been shipped. Arrangements have been made for the disposal of the scrap metal.

In addition to the urgent need for scrap rubber, the collection of paper, bones, metal of all kinds, fats, etc., is still vitally important. We have got away to a good start in Vulcan and district, let's keep up the good work and do even better.

NOTICE

IN THE ESTATE OF **MARY ANN CARLSON** late of Vulcan, Alberta, Widow, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above named Mary Ann Carlson who died on the 7th April 1942 are required to file with the undersigned Solicitor for the executor of her Will by the 9th July 1942 a full statement duly verified of their claims and of any securities held by them, and that after that date the executor will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims so filed or which have been brought to his knowledge.

Northern Tar Sand
Under Joint Study

Federal Gov't and Consolidated Smelters Investigating; B. C. May Aid in Exploration of Peace Block; Fort Norman Wells

In the House of Commons, Minister of Munitions and Supply, Hon. C. D. Howe, has announced details of exploration to increase oil supplies in Alberta. The government in conjunction with certain industries, is investigating the question of extracting oil from Athabasca tar sands. It is hoped to enlist B.C. interest in thorough exploration of the Peace River block for oil. More wells will be drilled at Fort Norman and a pipeline laid to the Alaska highways.

He said that the tar sands had been looked upon as a future reserve, but needs today are immediate problems of development may be quickly solved.

Mr. Howe says: "We have interested Consolidated Mining and Smelting who have had a good deal of experience in meeting mining problems in that area. I may say that the mining of the hand itself is one of the major problems that has not yet been fully worked out."

"We have asked all these interests to prepare a report for the government and advise whether development should be undertaken at this time and the extent of the development which conditions warrant, whether we should proceed by a pilot plant or whether the situation is such that we can immediately develop in a considerable scale. "Arrangements have been made to further develop the wells on the lower Mackenzie River at Fort Norman. Additional wells are to be drilled, the refinery capacity is to be increased, and a short pipe line is being installed to bring the oil across to the location of the Alaska highway."

End War in 1942?

(Christian Science Monitor)

Even heavy bombing of Nazi production centres and communication lines does not fully answer Lord Beaverbrook's plea of a second front. He is talking about an invasion of the continent. He has studied Russian needs in Moscow, and is aware of the danger that a tremendous Nazi drive will put Russia out of the war and crush any hope for early victory.

Lord Beaverbrook declares that enough men and machines for an invasion have been accumulated in Britain. Apparently some high opinion in London considers the risks still too great. But they may soon become less than the risks of not invading. Defense of the British Isles is still vital to the whole Allied cause. But now that reinforcements are coming from America the situation is different from those desperate days when Britain stood alone. Surely some of those forces can take the offensive somewhere along the English Channel without entirely losing their value for Britain's defense.

Rule For Keeping
Razor Blade Sharp

To keep razor blades sharp, it is recommended that you use an ordinary six-ounce drinking glass after each shave. It takes only half a minute to rub it around inside the glass while holding the glass under the hot water faucet. Never use cold water, as it chills the steel. Rubbing the blade inside the glass does not take away any metal from the cutting edge, but keeps it smooth and sharp. A blade can be made to last three to five months.

FAREWELL PARTY

Last Sunday evening the Christian Endeavour of the Church of Christ, played host to a gathering in honor of two boys leaving Vulcan. Leslie Jones has joined the R.C.A.F. and Rev. Gonyea is to attend Butler University where he is to complete his studies as a minister.

The evening was spent with singing and contests of skill and intelligence. Immediately before lunch the two guests of honor were presented with gifts from the church and the Young People's group. Then the forty friends present were served by the ladies and girls of the congregation, a delectable lunch of ice cream, cake and coffee.

Each of the boys expressed his appreciation for the thoughtfulness shown by the party and gifts, after which Mr. Jack Deans said a word or two on behalf of all those present, wishing the boys the best of luck in their new environment.

Presentation of the gifts was made by the Christian Endeavour president, Miss Ruth Wismer.

E. W. Beatty, His
Plan of Service

(From Ottawa Journal)

One day toward the close of the First Great War the late great Lord Shaughnessy, asked by a reporter what the C.P.R. proposed to do about a certain work, replied:

"I could probably answer your question, but there is a young fellow farther down the platform who could tell a whole lot of things about the C.P.R. that I couldn't tell you."

The "young fellow" was E. W. Beatty, son of Henry Beatty whom Van Horne had chosen to operate the Great Lakes Steamships and to advise on the design of the first C.P.R. Empress of the Pacific. He had come to the C.P.R. from Toronto University, where he had quarter-backed an intermediate championship team and been a pretty redoubtable boxer and one of his associates described him as—

"a man who just the other day was a boy, and who still regards life as a game of rugby."

A year later he wore the mantle of Shaughnessy.

It was the start of railway tribulation in Canada, when the Grand Trunk Pacific had gone into a receivership and the Grand Trunk into the Government hospital, and one of Beatty's first experiences as president was to sit in at a Press Gallery dinner and hear the wage sing:

"God save the C.P.R.,
Infine to Parlor-car,
Save the C.P.R.!"

Send them some more George Hams,
Softened the newspaper slams,
Ward off the people's dams,
Save the C.P.R.!"

Eddie Beatty went on to save the C.P., and perhaps in the process to help save a lot of Canada. He was not in the tradition of Van Horne or Shaughnessy, but was as modern as free-wheeling, and his conception of a great railway like the C.P.R. was not that of a corporation with the "public be damned" as its creed, but rather that of a national institution to serve the public weal. He could say:

"I believe the day is past when corporations can hold themselves aloof from the struggle for community benefit."

Toward the men who worked for him he was friendly, enlightened, humane. One day Grant Hall brought him a list of men to be laid off for what was thought to be a vital economy. It was a cold, bitter day. Beatty looked at the list and then out of the window at a blizzard. All he said was:

"This is a helluva day to let men out, Grant. Let's forget it!"

NOTICE OF ANNUAL GENERAL MEETING
VULCAN OILS LIMITED

TAKE NOTICE that the Annual General Meeting of the shareholders of VULCAN OILS LIMITED will be held at the office of the Company, in the Town of Vulcan, Alberta, on Thursday, the 28th day of May, 1942, at the hour of ten-thirty o'clock in the forenoon, for the purpose of receiving and considering the report of the Directors, the Auditors' report for the past year, the election of Directors, the appointment of Auditors and to transact such other business as may properly come before the meeting.

Dated at the Town of Vulcan, in the Province of Alberta, this 27th day of April, 1942

By Order of the Board of Directors

ASK LOCAL FARMERS TO
BRING IN SCRAP IRON
TO HELP WIN WAR

Canada's farmers are being asked to come to the rescue in the nation's critical need of scrap metal for war weapons, and the farmers in Vulcan territory will have full opportunity to do their part.

To meet this challenge to the farmers of this community an important step has been taken by J. T. Willard, International agent, who has announced that his firm will operate a scrap collection depot to which farmers may bring all the scrap iron they can find on their farms. The metal brought to this depot will be sent as quickly as possible to foundries and factories turning out tanks, guns, and other war supplies.

This campaign will be in co-operation with the local salvage committee and if agreeable it is urged that proceeds go to the local Red Cross, who will acknowledge each contribution.

J. T. Willard says that scrap metal brought to this collection point will be sold through the established salvage channels, with remittance to each farmer for the full amount that his scrap brings, or paid to the Red Cross as stated above. There will be no charge, no commission, or no profit in it for Mr. Willard. Mr. Willard says he will give his services and that of his store as a "patriotic duty."

There is an enormous pile of scrap iron and steel on farms. The estimates run into tens of thousands of tons. Unless this scrap starts to move at once, steel mills will reduce operations, the production of arms will slow down, and more lives, time, and money will be spent in fighting the war to a successful finish. Bring in the scrap Now!

KIRKCALDY

Mr. and Mrs. A. J. Maisey, Mr. and Mrs. Bert Maisey and son Darrell, were visitors on Sunday at the home of Mr. and Mrs. Lorne Maisey at Herndon.

Mr. and Mrs. W. Brinton and son Earl, were visitors at Cayley during the week.

Miss Bernice Markert of High River, is a visitor at her home this week. Mr. and Mrs. L. Wilhite and son Rodney were Claresholm visitors on Friday when they attended the funeral of Mrs. Long.

Bob Edwards
"Eye Opener"

activities on Refreshment Avenue, etc.; That learned lawyer of Hootch; Millionaires and their title-crazed daughters

The Daily Round

Mr. Bavis is building an addition to his house on Market Street to bring it level with the sidewalk.

Joe Powell has joined the choir of the Methodist church and sang for the first time last Sunday evening. The congregation when last seen was heading for the foothills.

The new livery stable facing Refreshment Avenue is going ahead rapidly, while the addition to the Royal is even now ready for the house-warming dance which is such a delightful feature of every livery stable opening. Nitchie Hutchinson is running the billiard hall and being a popular fellow, is doing a rushing trade.

The health of the town is very good, almost everyone being either on the mend or in prime condition.

A station agent has been located at Nanton. This should prove a blessing to stray drunks from neighboring burghs who have occasion to wire for more money.

James Stansfield who met with an accident on the ice on New Year's day is fully recovered. "Saved, saved" I cried, "when lo to my horror, her hair came off."

Call at Thompson's for your overcoat and underclothing. He is having a slaughter sale of such goods.

Learned Lawyer of Hootch

J. B. Cassidy, the well known lawyer of Hootch, Alberta, who handles most of the criminal cases of that region, paid a brief visit to Calgary last week taking in the sights. Mr. Cassidy has established for himself quite a reputation for profundity amongst drunken boozers round Hootch by purposely using language which no one in court can understand.

Only the other day Cassidy was denouncing a man charged with stealing a hog and proceeded to hand out the following line to the J.P.: "If your honor please," he said, "I would not for a moment mutilate the majesty of the law, nor contravene the avoirdupois of the testimony, but I would ask you to focalize your five senses on the proposition I am about to present. In all criminal cases, there are three essential elements—the locus in quo, the modus operandi, and the corpus delicti. I think I am safe in saying the locus in quo, the corpus delicti are all right, but there is entire absence of locus in quo. I therefore ask for dismissal."

This plea was very effective.

Millionaires and Daughters

Speaking of millionaires there is a lively shock in store for some of those rich featherhead American girls who have bartered their bodies, souls and dollars for European titles. All titles are to be abolished in France. Title-bearers are to have the pretty handles taken from them by the government. A beastly shame.

We have not heard if the fathers of these girls are to get a rebate of 10% to 15% on the original purchase money, but by rights the divested sons-in-law should refund at least half. The wives themselves could demand compensation from the French government and run a good chance of getting it, because the goods they have bought has depreciated.

Among those whose hearts will be broken are Anna Gould who traded herself for a generous consideration to an impecunious young idiot Count Boni de Castellane; Meggie Mitchell of Oregon, who got staked by her father, Senator Mitchell and bought the Duke de la Rouchefoucauld; Carrie Livingston invested her dough in Count de Laugier-illars; Miss Burden blew herself to Baron le Peletier d'Aunay. An ambitious widow wallowing in money picked out the title Countess August de Rohan-Cabor, and several others who are probably crying their eyes out as we go to press.

We regret to see that a young Canadian woman has recently married an English peer, eighty years of age after a satisfactory settlement had been made. Such marriages are the height of immorality, yet we ourselves might marry any old blither with plenty of money. Money talks. In this case the 80-year-old Marquis of Donsenal married the 24-year-old Miss Twinning. The rank of peeress was for sale for \$125,000 cash. But the Marquis now gets an annual settlement of \$40,000, which is pretty good going.

What marital felicity! The wife interested in the speedy death of her husband. The longer he lives the more he costs. We bet the Marquis pays a lot of good doctors to keep him above the daisies.

Don't be a CUPBOARD QUISLING!

"Cupboard Quislings"! Is that too hard a name for people who selfishly lay in unnecessary stocks of clothes or food, or other goods for fear of shortages?

No! The name is not too hard, even though it may be earned through thoughtlessness. For in reality they are doing, in a petty, mean way, what the Quisling does in the open.

Anyone who buys more than is necessary for current needs—

- Is breaking his country's law for personal advantage.
- Is betraying his loyal neighbours and those who are not so well off as he.
- Is, in effect, depriving our fighting men of the munitions and supplies they must have to defend us.
- Is hindering our war effort and helping our enemies.

Loyal citizens avoid putting unnecessary and abnormal strains on our factories. In time of war, loyal citizens do not spend one dollar more on civilian goods than is absolutely necessary for current needs.

The law provides for fines up to \$5,000 and imprisonment up to two years for hoarding; and hoarding is just another word for unnecessary selfish buying.

In cases where it is advisable for you to buy in advance of your immediate requirements—such as your next season's coal supply—you will be encouraged to do so by direct statement from responsible officials.

THE WARTIME PRICES AND TRADE BOARD
